THE WORLD'S LEADING CMOS AND CCD IMAGE SENSORS, CAMERAS, COMPONENTS AND SOLUTIONS.

VISION FOR MACHINES 

PROFESSIONAL IMAGING 

LIFE SCIENCES IMAGING 

## A Precise View. A Quality Solution.

DALSA's digital x-ray imaging components deliver a more precise window into your manufacturing and QC process. **Faster throughput, better detail, and the flexibility and reliability** that are the hallmarks of high-performance imaging technology available now as a cost-effective response to the demands of your industry.

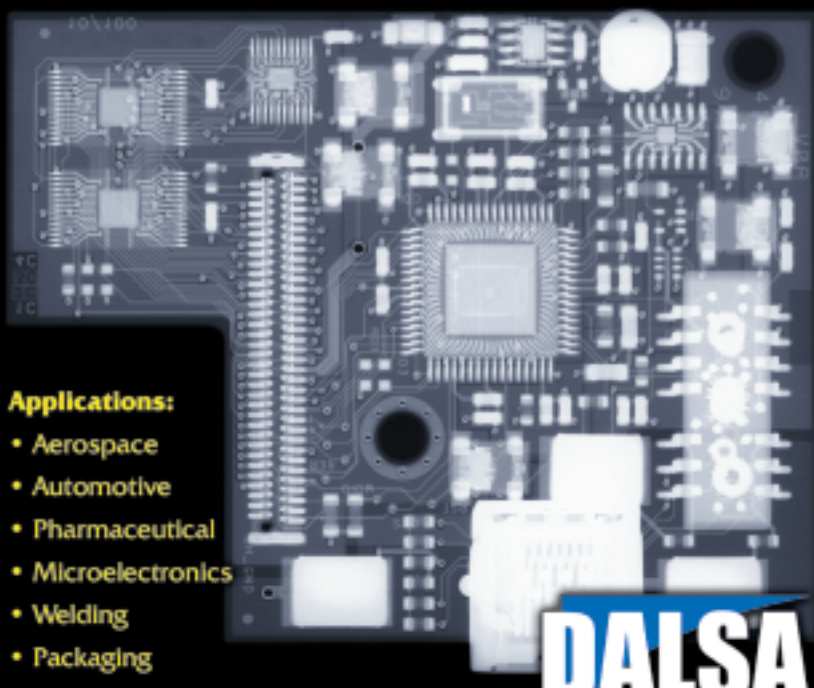

Contact a DALSA Imaging Sales Professional at: 520-791-7700 or email [x-ray@dalsa.com](mailto:x-ray@dalsa.com)

DALSA's *Cougar 6M3 X-ray camera*: megapixel resolution, high speed and high dynamic range for digital x-ray applications in industry.

**Applications:**

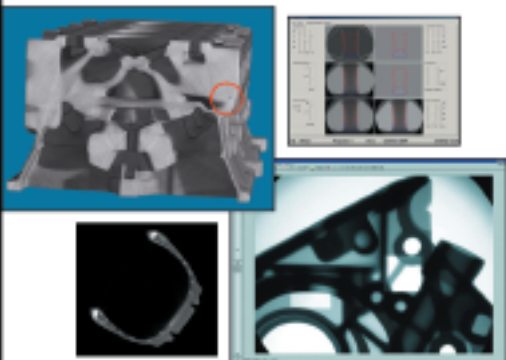

- Aerospace
- Automotive
- Pharmaceutical
- Microelectronics
- Welding
- Packaging
- Ceramic Tile
- Container Inspection

**Increase Profits and Improve Quality**

with **YXLON State-of-the-Art Industrial X-ray Inspection Products**

Affordable Solutions  
Powerful, Flexible, Easy to Use

An **ImVision Technologies Company**

**YXLON International Inc.**

3400 Siskiwit Road - Alton, NH 03210-1271 • 233.798.9920 • Fax 233.798.9924 • www.yxlon.com

## Finally...a truly portable laser tracker direct from the inventor.

API's Dr. Kam C. Lau invented laser tracker technology in 1982 and is now introducing the third generation laser tracker. The **Laser Tracker II PROSE™** features:

- Unprecedented portability and compactness — just 19 lbs and 1/4 the size of other trackers!
- Patented technology: 3D/6D tracking, Intelliprobe\* for deep hole and hidden point measurement
- Four-minute auto calibration
- Auto-Set ADM™ with automatic beam capture

In addition, our Laser Tracker operates in more extreme environments, at longer ranges and incorporates advanced self-diagnostic features. Quite simply, it's the best, most accurate and most reliable tracker you can find! Call 800.537.2720 today or visit our website for a FREE demonstration.

Call **1.800.537.2720** today!

**Automated Precision, Inc.**

**DALSA**

The World's Most Advanced Digital Imaging Solutions Technology

**Corporate Overview**

DALSA designs, manufactures and markets high-performance, high-resolution CCD and CMOS-based digital imaging components for industrial, medical and scientific applications. Researchers in the United States, Europe and Japan use our cameras in many diverse imaging applications, including X-ray radiography, biotechnology instrumentation, semiconductor manufacturing, nondestructive testing and proton therapy. DALSA products are designed for cost-effective, high-volume manufacturing, so that high-performance clinical, analytical and indus-

trial instruments can also be affordable. We're proud of our track record in service, quality, performance and on-time delivery. To further differentiate, we continue to work toward a better understanding of our customers' applications, which helps us add unique features to simplify operation and enhance digital imaging performance. Through collaborative design and research with our sister companies, we keep abreast of the latest in imaging technology breakthroughs. Our products bring state-of-the-art imaging technology from the research laboratory into usable, cost-effective solutions for real-world imaging applications.
