# Quality Sourcebook

## Software

**W**hatever the organizational dilemma—from compliance with quality standards to maintaining the status of calibration records—it's guaranteed that there's a software solution designed to alleviate it. In fact, utilizing quality software is probably often the most failsafe method to successfully implement and preserve quality control. Not only are computer programs helpful for those seeking quality standard registration but they're also crucial in manufacturing environments—wherein maintaining the integrity of instruments is essential.

This following section assists organizations that rely on dependable applications and services for their calibration records, as well as those seeking software to help with their ISO 9001 processes and implementation. The three directories included within this section are Calibration Services, Calibration Software and ISO 9001 Software.

Because there's such a large variety of statistical process control solutions available, we've given it its own section. Check behind the SPC tab for more information.

These directories are not meant to endorse or exclude a particular organization. Rather, they should be used as the starting point in the data-gathering process. Readers are encouraged to contact the companies directly for more information and to ask for—and check—references.

### Software Guide

Calibration Services Directory .....page 100

*This is a directory of companies offering calibration services. Listed are the company name, address, phone and fax numbers and Web address. Brief company descriptions, if provided, can be found on our Web site at [www.qualitydigest.com/directories](http://www.qualitydigest.com/directories).*

Calibration Software Directory .....page 104

*This is a directory of companies offering calibration software. Listed are the company name, address, phone and fax numbers and Web address. Brief company descriptions, if provided, can be found on our Web site at [www.qualitydigest.com/directories](http://www.qualitydigest.com/directories).*

ISO 9001 Software Directory .....page 107

*This is a directory of companies offering ISO 9000 software solutions. Listed are the company name, address, phone and fax numbers and Web address. Brief company descriptions, if provided, can be found on our Web site at [www.qualitydigest.com/directories](http://www.qualitydigest.com/directories).*

### Glossary

**CAD**—computer-aided design

**CAM**—computer-aided manufacturing

**CD-ROM**—a compact disk that functions as read-only memory

**Client/server**—describes the relationship between a powerful central computer (server) and individual PCs (clients) that request resources from the server. Clients can share files and access data stored on the server.

**CMM**—Capability Maturity Model. Developed by the Carnegie Mellon Software Engineering Institute, this outline of principles guides software processes through five evolutionary stages: initial, repeatable, defined, managed and optimizing.

**CoSQ**—Cost of software quality. An approach to software quality that entails outlining the economic benefits of delivering good-quality software.

**IEEE**—Institute of Electrical and Electronics Engineers, responsible for creating several software quality standards

**Intranet**—a privately maintained computer network that can be accessed only by authorized persons

**Real time**—relating to computer systems that update information at the same rate as they receive data, enabling them to direct or control a process such as an automatic pilot

The information contained in Quality Digest directories, plus some additional information, is available online at [www.qualitydigest.com/directories](http://www.qualitydigest.com/directories).

**Leading the way**

If you're looking for the leader in hardness testing, look no further than Wilson Instruments. Over the past seventy-five years, Wilson has earned a rock solid reputation as the leader in the design and manufacture of hardness testers.

**Rockwell® 500 Twin Series Tester**

- Rugged construction, affordably priced
- Precise testing for regular and superficial scales
- Easy-to-use digital and analog models
- Conform to ASTM E 18 and ISO 6508

**Knoop®/Vickers® 400 Series Testers**

- Versatile, user-friendly and affordably priced
- Digital and non-digital models
- Manual or automatic three position turrets
- Test forces 10 g to 1000 g
- Total magnification 100x and 400x

Wilson Instruments. Leading the way. We have been for 75 years.

Of course we think **ISOQuest** is great.  
But please don't take *our* word for it.

"GQI has exceeded our expectations in every way."

*Frederick Smith, P.L.C. Starck Inc.*

"ISOQuest was the best fit  
for our company."

*Ralph M. Stevens, CYRO Industries*

"GQI has come through  
time and time again."

*J.W. Jenkins, Lenmark Canada Inc.*

"outstanding...powerful...  
an exceptional package"

*Ivan Brinovec, General Seating Canada*

When it comes right down to it, nothing we could tell you about ISOQuest would mean as much as what our customers have to say. So we thought we'd let them do the talking.

Turns out that regardless of what sector they happen to work in—from automotive to accounting, education to electronics, manufacturing to metallurgy—their story is the same: ISOQuest helps them maintain a better quality system with fewer resources.

If you want to know more about our Domino- and web-based quality management software, visit [www.gqigroup.com](http://www.gqigroup.com) or call **905-452-9788** for a free demonstration.

Better yet, talk to some of the thousands of men and women who use ISOQuest every day.

After all, they're our best salespeople.

Streamline your  
processes with **TMSWeb**.

Improve employee efficiency  
through automating  
manual processes.

TMSWeb requires minimal IT support and is a completely web-based training and document management system addressing some of the most costly processes surrounding regulatory and compliance issues.

- Training Management
- Document Management
- Testing/Quizzing
- Corrective Action
- Part 11 Compliant
- Change Control
- Internal Auditing

Call us, or visit our website for more information.

# Relief for your APQP headaches

Managing your company's APQP program can be a tough challenge. Documentation and records need to be managed, organized and continually updated. The result is often a time intensive, uncoordinated effort that creates errors and increases costs.

FormVision™ from Integritas Business Systems is the medicine you need.

- Easily create an electronic "binder" of the PFMEA, Control Plan, Process Flow Chart, Work Instructions and PPAP
- Automatically links all core documents to ensure global updating and coordination
- Improves accuracy and promotes common APQP practices
- Customizable to fit your processes
- Includes 36 standard forms and checklists to get you up and running quickly
- Integrated APQP Tutorial - guides you through the process and provides helpful tips
- Available in English and Spanish

**Get a FREE 30-Day, Fully Functional Demonstration Copy**  
Experience FormVision and how it can improve your APQP process.  
Get your no-obligation demo today at [www.integritasinc.com/apqp](http://www.integritasinc.com/apqp)
