# Got Compliance Questions?

NEW!

## Find the Answers.

At last! A comprehensive guide to the myriad regulations governing good manufacturing, clinical, and laboratory practices from the FDA, EPA, and European Union. It also contains the complete text of many federal and E.U. acts, including the Medical Device Directive, the Animal Welfare Act and the OECD Principles of Good Laboratory Practice.

Author Les Schnell has more than 25 years' experience in quality assurance/quality control, auditing, regulatory compliance, management, and microbiology in medical, pharmaceutical, clinical, industrial, and food areas.

# LEAN SEMINAR

February 25–27, 2002, in Chicago, Illinois

## Lean Operations Training

"Lean" operations are not new. Japan is home to numerous companies that adopted these techniques as long ago as 20 years. Today, many are outstanding world competitors, but only recently has an interest developed in the western world.

Increased global competition will likely force all but the strong to the sidelines. Belt tightening and a "lean" mindset will enable the game to continue as companies steady themselves for the challenges and opportunities that await them.

Today's truly "lean" company will survive the ongoing global battle for customers and bottom-line profits. The need for "lean" is obvious and the potential rewards are dazzling. There will be those who will resist the necessary changes, but this training will start you on the road to overcoming this resistance and ultimately achieving a successful transition.

The word "lean" was popularized in the 1990 book *The Machine That Changed The World*. The book contained numerous astounding comparisons showing the advantage of lean operations over mass production.

- One-third the defects
- 1/10th the factory space
- Half the lead time
- 90 percent reduction in inventories
- Over three times the number of skills per employee
- One third greater levels of productivity
- 50 percent reduction in throughput times
- Scrap cut in half

### General Content

- Overview of lean production concepts
- Process flowcharting
- Workplace management practices (5-S)
- Lean inventory control (kan ban)
- Plant layout techniques
- Overcoming resistance to change
- Train-the-trainer techniques
- Keys to success
- Productivity improvement
- Total productivity improvement
- Lean production case studies
- Set-up simplification (SMFD)
- Poka Yoke (mistake proofing)
- Waste and overwork reduction
- Cellularization design
- Continuous improvement techniques
- Communication strategies and the "visual factory"
- Kaizen and other team activities
- Case study

### Benefits

- Become familiar with the various techniques of lean manufacturing.
- Learn ways to identify waste in processes.
- Learn how employee involvement can make dramatic contributions to achieving a lean environment.
- Learn continuous improvement techniques that never quit (PDCA).
- Discover tooling techniques that can drastically reduce setup times (SMED).
- Design a lean production layout plan.
- Know how and when to utilize kaizen and other teams.
- Learn how ill-shaped work cells can hinder efficiency and reduce process time.
- Master conflict resolution techniques that will lead to acceptance of a lean philosophy.
- Create Poka Yoke (mistake proofing) designs that will slash waste and scrap costs.
- Learn team leader and team facilitator skills.
- Develop a strategic plan to implement a lean environment.
- Develop a strategy to effect improvements in a selected process.
- Learn about incentive systems in a lean environment.
- Discover performance measures suitable for lean manufacturing.
- Learn the importance of developing multifunctional employees.

### Why QCI?

- We have been in business since 1970.
- QCI has thousands of satisfied clients.
- We offer huge discounts on additional attendees from the same company.
- Graduates are awarded QCI's highly regarded certification.
- QCI guarantees the training—satisfaction guaranteed or your money back!
- Graduates can reattend our seminars as many times as they wish at no cost.
- QCI provides a toll-free hot line to all graduates to receive follow-up consulting advice at no cost!
- Attendees will receive a free subscription to *Quality Digest* magazine.
- Each attendee will receive a FREE video produced by QCI—\$195 value!
- QCI is certified by the U.S. government as an approved MOBIS vendor for its agencies.
- To dramatically cut the cost of the training on a per person basis, QCI will conduct training at your location.

### Workshop Fees

One person .....	\$995
Second person .....	\$695
Each additional attendee .....	\$595
