*Each person, in truth, is an idea generator. The worker in his or her 25 square feet of space is the expert, rarely asked to participate in finding and solving the endless problems confronting them. Quick and Easy Kaizen is a management tool to unlock the hidden potential locked inside every single worker. We are here, I believe, for one purpose and that is to grow and serve. We start by serving ourselves, making our jobs easier and more interesting; then we serve our customer, the next person who uses our product or service. To survive in this most challenging of times we must harness the creative abilities of every single employee—Quick and Easy Kaizen will help you do just that.*
