2002 Enterprisewide Quality Software Directory

Welcome to *Quality Digest's* 2002 Enterprisewide Quality Software Guide. Included is a wide range of software manufacturers who returned our requests for information about their products that they call "enterprisewide."

Many of the listed companies have also provided detailed descriptions (including specifications and prices) of their enterprisewide quality software, which can be found at *www.qualitydigest.com/directories.* Still, we strongly urge you to contact these companies to learn more about the products they offer.

As with all *Quality Digest* guides, the companies and products listed in the 2002 Enterprisewide Quality Software Guide have neither been evaluated nor endorsed by *Quality Digest.* Nevertheless, if you're looking for such a solution, this directory of more than 125 companies is a good place to start.

We appreciate any feedback you might have on our directories. If you have a suggestion for how we can improve this directory next year, e-mail *directories@qualitydigest.com.*
