

# 2008 ISO Standards Software Directory

**W**elcome to *Quality Digest's* 2008 ISO Standards Software Directory. The software that these companies create or distribute will help you to achieve or maintain registration to various quality standards of the International Organization for Standardization (ISO). The software products are designed to support the diverse needs of companies large and small, not only in compliance to standards, but in continuous improvement in areas of interest and industries such as: aerospace, analytical tools, benchmarking, consumer protection, corrective actions, customer satisfaction, data gathering, documentation management, energy, environmental issues, federal government agencies, going green, hazardous waste, health and safety, measurement

process, process performance, return on investment, supply chains, value-adding methods, and more. If your needs concern any of these, take the time to contact these companies, and you may not need to look any further. Check this directory online for additional information on these companies, including descriptions of the software modules and/or suites that they offer (if this information has been provided to us) at [http://qualitydigest.com/QDB/html/bg\\_search\\_form.lasso](http://qualitydigest.com/QDB/html/bg_search_form.lasso).

As with all of our directories, this guide is intended as a starting point to help readers choose the right solution for their needs. *Quality Digest* hasn't evaluated, nor do we endorse, any of the products listed in this directory. Good luck finding the software solution to fit your needs.
