

# Test & Measurement

## Quality Sourcebook

**T**est and measurement equipment providers are the lifeblood of the quality profession. Without the devices they produce, quality professionals would not have the tools they need to accurately measure, test or inspect vital parts, components and direct-to-consumer products. Gage manufacturers and nondestructive testing (NDT) equipment providers manufacture thousands of general-use and specialized tools, including micrometers; thread, height, plug and depth gages; and digital indicators, to name a very few.

Because of the vital importance of gages on the shop floor, it's important for organizations to seek the best gages to fit their companies. The companies listed in the Gage Manufacturers Directory and NDT Directory are good places to start. Most of these companies supply gages, as well as provide technical support, repair and calibration services, and on-site training to help you learn to properly use their instruments. Many of these devices are displayed at the quality trade shows that occur during the year, so you might want to consider attending at least one to check out the many options.

This directory is not meant to endorse or exclude any particular organization. Rather, it should be used as the starting point in the data-gathering process. Readers are encouraged to contact the companies directly for more information and to ask for—and check—references.

### Test & Measurement Guide

Gage Manufacturers Directory ..... Page 115

*This directory includes the company name, address, phone and fax numbers, Web address, and the types of gages each company offers, if provided.*

Nondestructive Testing Directory ..... Page 121

*This guide lists providers of nondestructive testing services and equipment, and includes company names, addresses, phone and fax numbers, and Web addresses, along with their specialties, if provided.*

*Brief company descriptions, if provided, can be found on our Web site at [www.qualitydigest.com/directories](http://www.qualitydigest.com/directories).*

### Glossary

**A2LA**—American Association for Laboratory Accreditation

**ACIL**—American Council for Independent Laboratories

**Acoustic emission testing**—NDT method that detects the sound a flaw emits when a material is stressed

**Accuracy**—deviation from a known standard

**Actual value**—measured value of a feature

**ANSI**—American National Standards Institute

**ASNT**—American Society for Nondestructive Testing

**Comparator**—measuring component that compares workpiece characteristics to a reference

**Eddy current testing**—uses electromagnetic principles and is effective for both ferrous and nonferrous materials

**Electromagnetic testing**—method of NDT in which electrical currents flowing through ferromagnetic material will be disrupted at imperfections

**IEEE**—Institute of Electrical and Electronics Engineers

**LAB**—Laboratory Accreditation Bureau

**Leak testing**—method of NDT that detects flaws by identifying leaks in the material

**Liquid penetrant testing**—form of NDT that detects flaws on the surface of a part using an illuminated visible or fluorescent dye

**Magnetic particle testing**—testing wherein a part is subjected to a magnetic field and dusted with magnetic particles, which concentrate near imperfections on and near the part's surface

**NIST**—National Institute of Standards and Technology

**Nominal**—standard or desired dimension or size of a feature; the print values for the measurement as opposed to the measured values

**Radiography**—X-ray testing of a part

**Repeatability**—measure of the ability of an instrument to produce the same measured value when sequentially sensing the same quantity under similar measurement conditions

**SCC**—Standards Council of Canada

**SRM**—standard reference material

**Ultrasonic testing**—NDT method using sound waves to find flaws in materials or measure their thickness

**Visual/optical NDT**—the use of microscopes, borescopes and other visual inspection devices to locate flaws

The information contained in Quality Digest directories, plus some additional information, is available online at [www.qualitydigest.com/directories](http://www.qualitydigest.com/directories).

## Key to Directory Abbreviations

Air .....	AR	Height .....	HT
Angle .....	ANG	Humidity .....	HUM
Ball .....	BL	Laser Profiling .....	LAP
Bore .....	BR	Length of Travel .....	LTV
Centering .....	CNT	Noncontact Thickness .....	NCT
Chamfer .....	CHM	pH .....	PH
Custom .....	CUS	Plug .....	PLG
Depth .....	DP	Pressure .....	PRS
Dial Indicator .....	DI	Ring .....	RNG
Electronic .....	E	Roundness .....	RND
Electronic Column .....	EC	Spline .....	SPL
Flush .....	FSH	Strain .....	STN
Force/Torque/Tension .....	FTT	Tapped Hole .....	TPH
Gap .....	GP	Temperature .....	TMP
Gear .....	GER	Thickness .....	THK
Groove .....	GRV	Thread .....	T
Hand-held Dimensional .....	HHD	Vacuum .....	V

**RENISHAW**   
apply innovation™

**HIGHEST  
QUALITY**

**QUICK  
TURNAROUND**

**PICK TWO**

**When you need quality fast,  
choose genuine Renishaw Styli**

Experience makes the difference. Renishaw manufactures styli to the highest standards so you can meet the highest expectations of your customers.

We have manufactured over 3 million styli in a range of shapes, sizes and materials. Stylus extensions and shafts crafted from carbon fiber, titanium, ceramic or tungsten carbide are fitted with balls made of ruby, silicon nitride and zirconia oxide to meet and exceed

AFBMA 3290 Grade 5 standards.

Renishaw can put all that quality and precision to work for you...fast. Choose from over 2000 styli or call us for something unique. For custom products we'll process your RFQ in 24 hours and can often ship within 72—we now have manufacturing right here in the US.

If your requirements include quality and quick turnaround, pick Genuine Renishaw styli.

Apply innovation™.

**Validate precision measurements with absolute accuracy**

For fifty years, Boston Centerless has been a leader in precision grinding. We now manufacture gages to assist you with your measurement requirements. Our in-house manufacturing capabilities enable us to maintain the highest quality standards.

**In stock and ready to ship:**

- Thread Measuring Wires
- Gear Measuring Wires
- Cylindrical Plug Gages\*
- Optical Flats

\*Including XXX and specials

**Additional services:**

- Cylindrical Lapping
- Calibration and Inspection

ISO 9001:2000 Certified

**Non-Contact SURFACE ROUGHNESS**

**LASER** <sup>CHECK</sup>

**OEM Systems**  
**Automated Systems**  
**Precision Surface Measurements**

- Readings in a fraction of a second
- Works on any material or color
- World's most rugged surface gage
- Years of trouble free operation
- No maintenance costs
- No fragile stylus tips

**Ideal for high volume manufacturing!**

25422 Trabuco Rd, #105-435  
Lake Forest CA 92630

**OPTICAL DIMENSIONS LLC**

**The biggest selling point about the MS40 is the selling point.**

Now you can get an exposed optical linear encoder for the price of a magnetic encoder! And with our easy mounting, you'll save on labor costs, too.

- Resolution down to 0.5 um
- Measuring length to 9 meters
- Flexible to your application needs
